

# Cisco SD-WAN: A next generation enterprise grade SD-WAN solution

Address the challenges of tomorrow's modern applications, today. Unleash your business's full potential with Cisco SD-WAN [Viptela] for advanced routing and flexible deployment.

## Business value:

- Simplify IT operations, which enables potential cost reductions.
- Optimise performance by prioritising branch office traffic and allowing branches direct access to the cloud.
- Significantly improve enterprise-wide security by protecting branch locations from cyber threats.
- Comprehensive end-to-end managed service model offers quality and reliability.

## Why choose Cisco SD-WAN (Viptela)

- > Predictable SLA on all critical enterprise applications
- > Best-in-class integrated security
- > Cloud optimisation where WAN can be extended to multiple public clouds
- > Single management dashboard for easier operations
- > Rich analytics with sophisticated forecasting

## Choose BCX

01

When it comes to selecting the right partner for your SD-WAN implementation and management, it's about more than just comparing technologies and prices from service providers.

02

We know that yours is not a one-size-fits-all requirement, so we don't merely offer you off-the-shelf vendor technology. We create customised and scalable solutions to meet even the most complex requirements by combining technologies within our holistic suite of SD-WAN solutions. This means that you only pay for what you need, and along with our managed service capabilities, allows you to maximise cost efficiencies.

03

Our customers trust us for enterprise networks that combine the flexibility of SD-WAN with robust and reliable network infrastructure designs.

04

Our suite of solutions offers best-in-class vendor technologies as well as our own proprietary solutions to deliver a secure, cloud managed and carrier-agnostic network, supported by over 200 certified networking specialists and engineers.

05

As one of the leading WAN providers in Southern Africa – with over 550 managed WAN customers and more than 22 000 network endpoints - we understand that your WAN is the digital foundation of your business and we look forward to assisting you in selecting the right solution that will help you achieve your business goals.

06
