

BCX SAP

Today businesses demand greater control and improved systems to complement and enhance their business operations. Companies must operate efficiently and cost-effectively to stay abreast with industry changes, market dynamics and to outperform their competitors.

At BCX, we are proud to be one of South Africa's leading ICT and telecommunications infrastructure partners to all organisations. As a wholly owned subsidiary of the Telkom Group, BCX combines knowledge of infrastructure and ICT experience to provide solutions to help optimise businesses and create opportunities through a variety of scalable solutions that are insourced or outsourced. We are committed to help organisations digitally transform, by combining local market understanding, industry expertise, and Information and Communications Technology.

Within the BCX stable is the BCX's SAP Centre of Excellence which has a significant SAP capability and skilled staff complement and is recognised as a leader in providing end-to-end SAP services in Southern Africa.

BCX provides a full range of SAP services and is supported by SAP through SAP's Partner Programme. We are certified at the highest partner level, that of SAP Service Alliance Partner. In addition, we are also a:

SAP Approved Hosting Partner

SAP HANA Services Operations Partner

SAP Certified Cloud Services Partner

SAP Partner Centre of Expertise [PCoE]

SAP Value Added Reseller [VAR]

Premium Supplier for SAP HANA Enterprise Cloud

These partner programmes allow BCX to gain access to, and conform with SAP's global best practices, allowing BCX to achieve its unblemished track record of successfully delivering several large and complex ERP implementations, numerous migrations and upgrade projects as well as provide world class SAP support.

BCX SAP is well positioned to assist companies to achieve their strategic goals, as we have an outstanding reputation for:

- Providing sound SAP consulting on all business, application and technical related issues
- Implementing SAP systems on time, on budget and to an award-winning quality
- Upgrading SAP systems without and business disruptions and down time
- Delivering efficient and effective SAP support services via our SAP Support Hubs, or if preferred, providing highly skilled on-site SAP consultants
- Providing cost effective SAP infrastructure solutions as either a cloud-based service or on an outright purchasing option
- Offering flexible and client specific SAP Hosting services, whether this be as a Premier Supplier for SAP HANA Enterprise Cloud or via the BCX Cloud and Hosting services options
- Having the capability and skills to provide a full range of integrated services, within the SAP suite of products or between SAP and all other products
- Migrating databases from any data base product to SAP HANA
- Migration to and the implementation of SAP S/4 HANA solutions
- Offering tailored SAP solutions and support offering in all industries, specifically focusing on the retail, mining, services and FMCG sectors
- Implementing and guiding the conversion to SAP C/4 HANA to provide superior customer experience
- Provide innovative solutions through artificial intelligence (AI), machine learning, internet of things (IOT) and data science.
- Implementation of AppDynamics for SAP to speed up cloud migration and S/4 HANA adoption

At BCX, we pride ourselves in being one of South Africa's leading ICT and telecommunications infrastructure partners to organisations of all sizes. As a wholly owned subsidiary of the Telkom Group, BCX was established through the fusion of Business Connexion, a company established 20 years ago, and Telkom Business, a division of Telkom, in November 2016. The company combines Telkom's knowledge of infrastructure and Business Connexion's experience in providing ICT solutions to help our 27 000 clients optimise their business and create opportunities that might seem impossible through a variety of scalable solutions that are insourced or outsourced.

We aim to help organisations, their employees and the country, digitally transform to become more reflective of the productivity, power and dynamism of the people who drive them forward. To do this we combine local market understanding, deep industry expertise, some of the world's most advanced Information and Communications Technology with a tireless commitment to make our customer's unique digital journeys as seamless as possible. That way they can focus on their goal – creating an organisation that will change the lives of its people, community and country.

Headquartered in Centurion, Pretoria, BCX permanently employs circa 7 500 people and our global footprint spans over South Africa, Botswana, Mozambique, Namibia, Nigeria, Tanzania, UAE, UK and Zambia.
