

An Enhanced and Integrated Biometric Health Solution

WHAT IS BCX HEALTH PORTAL?

BCX Health portal is a cloud hosted web application designed to enable clinics to submit biometric results to medical schemes, enabling pharmacies to claim payment for professional services rendered.

WHAT BCX HEALTH PORTAL DOES

The BCX Health Portal can cater for multiple medical schemes, and as a starting point already caters for 18 major medical schemes and reward programmes, including Discovery Vitality and Momentum Multiply.

HOW IT WORKS

The BCX Health Portal provides a similar functionality to the current Discovery Vitality Portal and other existing medical scheme specific portals currently used to process biometric results in order to secure payment for professional services rendered.

Our aim is to collaborate with all medical schemes to provide one portal that can be used by all service providers and medical schemes to the benefit of their members. The user-interface is designed to make operability as user friendly and intuitive as possible, and this is complimented by a sleek design.

WHY CHOOSE BCX

- Flexible and scalable, with business agility.
- Subscription-based commercials.
- Fully managed solution and reduced cost and complexity of ownership.
- Hosted in Microsoft Azure that is managed by BCX.

FEATURES

Submissions cater for both adults and children and consist of the following categories: Biometrical Readings, Lifestyle Questionnaires, HIV & Voluntary Counselling, Flu Vaccinations, Medical Information, Health Behaviour and Milestone Questions.

BENEFITS

An increasing number of medical schemes are now willing to reimburse pharmacies for health screenings (for instance blood pressure) and other professional services, thereby opening up a potential new revenue stream for pharmaceutical businesses.

A prerequisite for payment, however, is that the relevant medical scheme requires a copy of the results of any biometric tests conducted. Here pharmacies usually have to acquire the necessary clinic software to do this. The BCX portal enables pharmacies to send the required biometric results at a fraction of the cost of the clinic software.

PRICING MODEL

Subscription based, no fixed or long-term contracts.

This solution is available nationwide. For more information and specific pricing details, contact your Account Manager or email Pharmacy.engagement@bcx.co.za
